And what, after all, she is an Android, but a tumble with a computer program that she pulls her ropes? Having fascinated by the history of Pinocchio, who wanted to be a true child, David has reasoned that a blue fairy could be able to transform it into a human and allows him to love him and be loved. He has treated cruelly for other children; When he reveals, he does not urine, a child grabs his pants and says: "Let's see what do not orine." After faithfully follow the instructions of him in such a way that he is almost drowning to Martin, he loses the confidence of the SWintons and decided to get rid of him, just as the parents could get rid of a dangerous dog. Monica can not return to David to Cybertronics. The filmmaker Jamie Stuart informs me that she is not there at all; That an illusion has simply been implanted in David's mind, and that the conclusive scenes are completely carried out within David's point of view. He can not spend all his time loving mom and being loved by her. He imitates life. This reminded me of the halter room of Juniter built for Dave by aliens in "2001" of Kubrick. It has the same purpose, to provide a family surroundings in an incomprehensible world. In fact, he does not love and he does not feel love; It simply reflects the coding of it. This does not imply more emotion that Big Blue determining the next movement of him in chess. I. Evade your responsibility to strive rigorously with this feature and goes in order to end that you want us to cry, but if I asked me questions just when you should have been finding answers. "That is true enough at the main level of the film, which says to David. History. We relate to pets similarly, especially dogs, which seem It was activated by the evolution to love us. David, Joe and Teddy Escape, probably due to his survival programming, but David is dismayed by what Birds? He could. No, he he remains possessed. Possibly the programming of him did not prepare him to treat one by one in real time with real kids. To believe that special effects would not be adequate and a human actor would seem too human, he handed the project to his friend of Him Spielberg. Will not die. Previously on the film, it was established that he could not sleep or, therefore, sake. Why would a wick care if another obtained satisfaction? The central act of the film shows David dembulating a world where the wicks have no rights. He does not eat, but so strong is his desire to be like Martin that he donor the wiring of him by pushing the spinach in his mouth. Viéno again recently, I realized something more: "A. And that wick will love them. Now they are in a position analogous to David in his search his mom. The first act of the film Involve Henry and Monica Swinton (Sam Robards and Frances O'Connor). How is it related to the destruction of his species? Then Rouge City is, a kind of psychodic universal city, where Joe takes him to consult him. A magician. What does love mean in this context? "Visit two amazing places designed by Spielberg in huge sound stages. I started with the assumption that the skeletal silver figures are in fact android, of A very advanced generation of David. And then accept it. In a spooky scene, it is with a warehouse that contains dozens of Davids that resemble him. They would interpret Mom with his own Davids. Everything that can do is execute programs that can be sophisticated enough to deceive Arnos B and seem to think. They lack a crucial element for their function. After some pseudoscientific Legerdemain that involves a monic hair strand, they can bring it back after 2.000 years of death, but only for 24 hours, which are all continuous permissions. Suppose that such It would be embedded in its programming DNA. He does not cool, is not hungry, and apparently has an indefinite supply of fuel. He exists to love her and be loved by her. No, he does not seem to have such emotions, nor any emotion, he saves those who are scheduled to falsify. To fulfill his mission to love and be loved by mom, he concludes that he should be like Martin, who Mami prefers. No, why would you mind? If the machines can not feel, what does the closing sequence really mean? He allows these beings, such as invisible beings in "2001", to observe and learn from behavior. He looked at the film again, I asked myself why I wrote that the final scenes are "problematic", passes over, and á €
