Textbooks The American Pageant enjoys a reputation as one of the most popular, effective and fun texts in American history. Colored anecdotes, first-person quotes and the brand with witty give life to American history. The 14th edition places an even greater emphasis on the global context of American history through a new feature, "thinking globally". The characteristics of the primary source magazines excite the interest of the students and help to learn to examine the documents as historians do. The effort to focus on trends rather than isolated facts. Each period has an overview of a page that suggests various ways in which historians have studied the period and lists the three key concepts in the foreground from the college curriculum framework. Each chapter ends with the historical prospects, a feature that faces the emphasis of the college council on how historians have interpreted the events of the chapter in various ways. The conclusion of the chapter presents a list of key terms, people and events organized by theme, reflecting the college focus on asking students to identify themes not only events. The assessments of the chapter include eight multiple choice elements, each linked to a source as in the new AP exam and four short-response questions. The revisions of the period with long-term questions and questions based on documents in the format of those of the new AP examination are also included. This new edition maintains the readable narrative and the questions based on the documents that made him a teacher and a favorite student.
