In English grammar, an abstract noun is a name or phrase of noun that appoints an idea, an event, a quality or a concept - for example courage, freedom, progress, love, patience, excellence and friendship. An abstract name appoints something It cannot be physically touched. Contrast it with a concrete name. According to "a complete grammar of the English language, abstract names are" "typically not observable and not measurable", but, as James Hurford explains, the distinction between abstract names and other common names" is relatively unimportant as regards grammar. "An example of abstract names used as a phrase is: "Silence can be a source of great strength. "Here," silence "and" force" are abstract names because they appoint an idea and quality respectively. In the following examples, the abstract name is listed in the type of ailing. "Love is an irresistible desire to be irresistibly desired." "Robert Frost" men say they love independence in a woman, but do not lose a second demolition is brick. "Candice Bergen, quoted by Catherine Brelin "The Padress Condition." Dutton, 1976 "Creativity requires the courage to let go of certainties." at "Eric Fromm" more than any other time in History, humanity faces a crossroads. A path leads to despair and total despair. The other, to total extinction. We pray that we have the wisdom to choose correctly. "A e" Woody Allen, my speech to graduates. The New York Times, 1979 "When love is gone, there is always justice. And when justice is gone, there is always strength and when the force is gone, there is always Mom.hi, Mom!" "Laurie Anderson", "O Superman." 1981 "Fear is the main source of superstition and one of the main sources of cruelty. Conquering Fear is the beginning of wisdom." Bertrand Russell, or a scheme of each other abstract is unpopular essays. "Simon & Schuster Inc., 1950 "his face, which was long and dark chocolatehead a thin sheet of sadness on it, light but permanent as the vision gazebo on a coffin. "at" we may not know a quality like coherence through our senses; we can only see or know the people acting in ways that we get to label coherent." "at" william van de koppel, "clear and consistent proof." "scott foreman & co, 1989 "thought abstract names tend to be useless (courage, happiness, news, tennis training), many are numberable (one hour, a joke, a quantity). others can be both, often with changes of meaning from the general to the particular (great kindness/manya kindness)." "at" tom macbeth "abstract and concrete," the oxford companion to the english language. oxford university press, 1992 ("m") and abstract names are not generally flexible for the number (lucks, nauseas) or do not occur in the possessive (the man's engagement)." "m. lynne murphy e anu koskela, key terms in semiotics, "semiotics 2010" In the abstract ecology names are relatively unique, "there are few, if any, appropriate particles grammatical processes are affected only on the set of abstract names, and this is reflected in the semantics of the term." it is supposed that the reason the restriction of the number of abstract names is reflected in the existence of obvious names such as freedom, action, and time, is a mismatch between this and the properties of the words. "at" ericsson, for this mismatch, and the problem, the response was to append diacritics to the problematic words. "at" philippe le houer, r. hurford, hurford, eric rosario eredeneas orasareca "Aip" "A non, ittud id olqM, erettarac id enozaerc us 06 ollevia a onif eratas elisibos.
